

Hormones and H'ordeuvres

Program Details

Here is the information you need to know to consider participating in our “Hormones and H’ordeuvres” program. If you have questions after reading this info or if you’re ready to sign up to host an event, please contact Kenny at the pharmacy.

Setting Up the Event

The host is responsible for selecting the location, date and time. We recommend your home, office, church or homeowners association clubhouse. Reserve the date and time with Kenny, then invite your friends! We request a minimum of eight attendees. We will provide you with a form to record the pertinent details we will need.

The Hormones

Kenny will share a one-hour presentation with you and your guests. The topics will include:

- Basic information about how hormones work in our bodies
- The differences between synthetic and natural hormone therapies
- How to determine if natural hormone replacement therapy is right for you
- How to get started

He will provide literature on the topic and our pharmacy, and answer any questions your guests may have. Kenny will need a power supply for his laptop and projector and a blank wall to display the projections.

The H’ordeuvres

The host is responsible for the food. You know your friends and what they like and you know your hosting style. You should do whatever you’re comfortable with. For some this may mean serving a simple, healthy dessert. Others may want to offer a more elaborate selection. Your menu may also be influenced by what time of day the event is held.

Our Appreciation Gift

We appreciate your willingness to host an event for us. As a token of our appreciation we will give you a \$50 gift card to use however and wherever you like.

Contact Info

To learn more details or schedule an event, please contact Kenny. And thanks for considering this!
